ELF-50 WRAP AROUND LABELER

The ELF-50 is the smart choice for the small production runs when efficiency and equipment cost is the major consideration. ELF series labelers is the best helping hands available.

- ◆ Labeling counter: Keeps track of the quantity of products processed by the machine.
- ◆ Pre-set counter: A quantity can be preset for a production batch and the machine will automatically stop as the quantity is attained.
- ◆ Label position set: Used to delay label application and adjust label position by simply touching the control screen.
- ◆ Five memory slots: For fast and easy label set-up.
- ◆ Printer interface: Future installation is accommodated by the printer ports which provides timing controls for flexibility and clear quality prints.
- ◆ Stepper motors are used to provide fast and accurate labeling.
- ◆ Modular design concepts for fast and simple maintenance.
- ◆ Flexible enough to handle production schedule changes with simple adjustments for rapid changeover.

Machine Dimensions: L 43" (1100 mm)
 W 34" (865 mm)
 H 19" (480 mm)

Weight: 165lbs (75kg)

Manufactured by:

PACK LEADER MACHINERY INC.

Taiwan, R.O.C.

Power Source	110V / 50HZ/60HZ 1 Phase
Power Consumption	6 amps
Driver	2 Phase Stepper Motor
Dispensing Speed	16 m (52.5') / minute
Conveyor Speed	10 m (32.8') / minute
Conveyor Width	150 mm (6")
Product Diameter	152 mm (6.3") Max
Label Height	120 mm (4.75") Max
Label Length	300 mm (11.8") Max
Label Reel Inner	76 mm (3")
Label Reel Outer	254 mm (10")

Optional:

Inkjet printer
