SPM-553S Case Sealer

Side Belt Drive

SPM-554TS Case Sealer

Top & Side Belt Drive

Features:

The **SPM-553S** uses a new tape head design incorporating a V-shaped plate (patented) designed to keep the tape straight and in position for consistent sealing of every carton. Separately driven side drive belts, provide high precision, low noise and long belt life. The overhead support is cushioned to adjust to small variations in boxes and prevent jamming.

The **SPM-554TS** uses the same features, but incorporates two additional top belts. This machine is designed for heavy cartons as well as tall-thin cartons.

OPTIONS: AVAILABLE IN STAINLESS STEEL

Machine shown with optional infeed and outfeed extension roller tables—sold separately
L 500 mm x W 530 mm
